ONE FAMILY, TWO PIGS, ENDLESS POSSIBILITIES

Thanks to our donors' generous donations Good Neighbours Australia, in partnership with Good Neighbours Vietnam, we are able to provide 20 households with 2 black Sow Pigs. The pigs were provided by a local supplier in the Quang Binh Province. Have a look below to see how their donations made a difference.

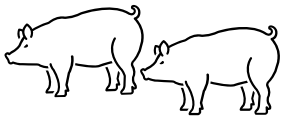
WHY PIGS?

Pigs provide varied benefits for these families. A pig is a familiar domestic animal to the local people, and many have previous experience in raising them. Importantly, a pig can be raised in a short time and provide substantial income for families. An added bonus is that pigs can eat food scraps and garden waste! So, while being eco-friendly, they also do not put financial burden on the families receiving them

WHO RECEIVED THEM?

Families in Tan Bac and Yen Thanh Commune, Quang Binh

The families are chosen against the following criteria:
1) Household classified as low-income
2) Households member is a caregiver of children
3) Households own required space for raising 2 pigs



PIGGY AND MISSY = $300 PER HOUSEHOLD

MESSAGE FROM OUR BENEFICIARY

Thanks to the support of Good Neighbours Australia, we received 2 pigs. We feel so happy and would like to thank the donors for helping us earn more income to improve our lives. I always dreamt of raising cattle to improve our economic situation but it has been an impossible dream until now. Thank you very much.

Mr Lan Van Dat

**Mr Dat lives with his wife and two children aged 7 & 3. He is the sole income earner and works various manual jobs such as cutting wood, sowing rice or in construction labour to make ends meet.*

YOUR DONATION THAT KEEPS ON GIVING!

DEAR SPONSORS,

We have wonderful news to share. Many of the pigs that were donated last year have started to produce piglets! Each of those piglets will quickly grow to weigh as much as 13-15 kgs and will bring in a good price at the market. This means an additional income for the family - nutritious food, school supplies, medicine and so much more.

Your donation has the power to change a family's life in rural Vietnam.
